NISSAN INTELLIGENT MOBILITY

Freshly out of the revival of the Y2K ultra-low-rise jeans, we are running back

to the ribcage high waistlines. With the high waists these jeans are perfect for ALL body-types (and perfect in time for the winter weight.) The 80s are back in full swing with this denim and we are here for it, and so are the runways. We've been seeing the revival from celebs to on the streets, and it's safe say to low-rise can move aside it's time for high-rise. From Lizzo to Selena Gomez and Lili Reinhart, the high-rise is definitely coming back and perfect for all bodies. Brands have been taking their own spin on this cult-classic now it's your turn.

Low-rise denim wasn't for everyone, and if you're like us you'd rather be comfy and confident. Well don't worry 'cause we've got your back with these jeans that are perfect for all body types whether you're on the runway or lounging around. High-rise denim is flattering on everyone (we promise), the high waistline accentuates your waist and hips while smoothing out everything in between. Basically, high-rise makes you Kim K but on a budget. Don't know about you guys but we are here for this trend!

Our top picks for the best high-rise denim of 2022.
